Education for the Real World

Ed Gurukul Enrichment Academy

Ed Gurukul Way: Please read information sheet on "Ed Gurukul Way" to know who we are, what we stand for and how we do.

Ed Gurukul is proud to introduce our After School Enrichment Program for children from Kindergarten through the 7th Grade. The After School Enrichment program is not a day care; it enhances the learning beyond regular school hours in a safe, fun, and challenging environment. We focus only on Education.

The After School Enrichment Program provides a warm, caring environment beyond school hours where your children have the opportunity to get homework out of the way, leaving time to have valuable family time.

- Each student has group class once a week and receives a weekly homework packet.
- In addition to having weekly class, tutoring is offered daily on school homework.

The ASEP utilizes age appropriate materials and equipment for Students. From math lab to board games, students spend out-of-school hours in safe and stimulating environments. ASEP of Ed Gurukul helps students enhance their skills by using a curriculum correlated with the state standard.

After School Enrichment program enhances the utilization of your children's time to complete daily school activities and learn special skills while you are still at work. The hours between school dismissal and evening are going waste among the future leaders of the world. The best way to utilize the time is to help the children complete their school work and challenge them to learn interesting skills which will make them confident individuals...Ed Gurukul ASEP does exactly that!
