Kinder Enrichment Program (KEP) provides a warm and care giving environment which prepares your child for kindergarten. We utilize age appropriate materials and manipulative to stimulate your child's enthusiasm. Our goal is to prepare your child for kindergarten and make it an easy transition both for you and your child.

We have structured curriculum and teaching method that will help your children gain confidence in subjects allowing independent exploration, structured activities, and hands-on learning. Children will work on early literacy, math, social studies, science, and physical activity.

The workload is only one hour each day depending on the child's schedule, so that valuable family time is not taken away from the child at such a young age where lot of the learning comes from the interaction with Parents and siblings.
