As a parent your desire is to provide the best possible educational environment for your child to learn and grow. Currently, Ed Gurukul focuses on Math, Reading and Science as its primary course offerings. The teaching and coaching methodology utilized is based upon its unique and comprehensive "4 Cube Framework" (as the logo suggests). Each student is placed at an appropriate Level after a placement test and from then on, they are on their road to success.

Ed Gurukul is excited to announce another year of our popular Summer Bridge program, **June 6th- August 20th, 2016**. Students will be taken through this journey of 11 week program of intense and quick overview of topics that will be useful for their upcoming grade. Per schedule below students can come for 1 or 2 classes during the week.

For those who will be traveling, or those who are far off from our Plano/Irving centers, we are offering **EDLP - Ed Gurukul Distance Learning Program**. Ask us about the new tablet education (EdGTab)
