

Ed Gurukul is introducing tablet based coaching of our flagship product **EdG Math**. We are also introducing a new program for students in Grade 7 and above called **212 deg. Program**.

Introduction:

Our **TabEd** Product offers two courses/programs for students. EdG Math is offered for students who are in Grade 5 and above in our Android Tablet and students in this program are in constant contact with a teacher for clarifications and questions on topics covered in EdG Math. We have new program in TabEd which prepares a student to be ready for high school. In this program students are giving guidance on courses that they are to take in high school, monitoring their grade in school and help with the progress both in academic and non-academic areas. This program is called 212 degree program. Details about this program are also given below.

TabEd Product:

Students are provided with a fully configured Android tablet which can receive lessons in the program / course chosen.

EdG Math Course:

Ed Gurukul has been offering EdG Math Course to several students across all grades. EdG Math is a fully developed and comprehensive Math program which has 14 main levels, 42 sub levels, 672 booklets and over 2520 lesson capsules. This program is offered right from **Counting to Calculus**.

212° Program:

This program is developed inspired by the top selling book “212° the extra degree by Sam Parker”. In this program students are allowed to excel themselves and they will be a guided through to realize the value of the extra degree of hard work one has to put in to gain exponential results. Practically we have seen in various circumstances this “missing last mile” that results in “lost opportunities”. Through this program students are guided through in advancing themselves in **(AA) Academic Advancement** – monitoring the progress in school and help with grade building, **(BB) Born to Build** – developing leadership and volunteering ability to make a difference in the society, and **(CC) Core Courses** – Math and Vocabulary building.

Course / Program Outline:

Students enrolled in **TabEd** product courses/programs will have regular weekly assignment in each segment and are required to complete the assigned work on time. Total commitment is required to get full benefit from this program. Being part of **TabEd** gives personal coach/mentor for your educational needs. **TabEd** comes fully configured will all necessary links, connections, software and setup. With your product, you can send text to your mentor, make video call to your mentor, access all e-Books and search internet for all your educational needs. Real time interaction is a great benefit.

2015-2016 Course fee on TabEd:

Registration and setup fee: \$200.00. (Comes with **TabEd**)

EdG Math: \$109.00 – \$10.00 per month. **212° Program:** \$169.00 - \$10.00 per month.
